

# Cody Clark

Technical Writer | Information Designer

My name is Cody Clark, and I'm a recovering prescriptivist, not-so-recently escaped from Wright State University. But old habits die hard—my bookcases are still littered with guides like *Garner's Modern English Usage* and *The Chicago Manual of Style*.

I advocate for developers by “technically” writing at Google. I have previously written for SendGrid, Informatica, and Honda R&D. When I'm not writing, I enjoy playing in pit orchestras, visiting used book shops and arbitrarily omitting Oxford commas.

## // WORK

July 2018 – Present  
Seattle, WA

● Technical Writer  
Google, Developer Relations: Cloud Information Experience  
I write and own docs for Google Kubernetes Engine and Anthos features such as Batch on GKE, Surge Upgrades, Scalability, and Multi-cluster Management.

May – August 2017  
San Francisco, CA

● Technical Writing Intern  
Google, Developer Relations: Cloud Docs  
Updated, fixed, and migrated 3 Kubernetes tutorials from the examples repo to the tutorials repo. Maintained the open-source Kubernetes docs by reviewing, approving, and submitting pull requests for the 1.7 release. Contributed UXD to Kubernetes docs site by designing, creating, and documenting shortcodes for admonitions.

May – August 2016  
Boulder, CO

● Technical Writing Intern  
SendGrid, Developer Experience  
Maintained open-source documentation for SendGrid using Github, Netlify, and Jekyll and wrote a comprehensive workflow for setting up Inbound Parse.

May – August 2015  
Redwood City, CA

● Technical Writing Intern  
Informatica  
Wrote 3 How-to guides for creating Hadoop clusters with Informatica Big Data Edition on Pivotal HD, Hortonworks, and IBM Big Insights distributions.

May – August 2014  
Raymond, OH

● Corporate and Technical Communications Intern  
Honda R&D  
Developed and implemented an editorial calendar for daily posts to the company intranet then rendered it obsolete by automating the publishing process by sending digest posts instead of manually recapping individual articles. Localized translated documents and wrote documents for translation.

## // EDUCATION

2017 – 2018
